

Lester C. Noecker Student Council's

“Beary” Special Coin Collection

Lester C. Noecker Student Council will be visiting Build-a-Bear Workshop to make bears for hospitalized children. These bears will be donated to Saint Barnabas Hospital. We hope this will bring smiles to many children's faces.

In order to raise money for this trip, Student Council will be holding a coin drive. Grades 3 through 6 will have small containers placed in each classroom. There will be a larger container in the office for all other grades. Look for the “Beary” Special Collection Bin in the office. You can donate coins earned from your allowance, coins collected from friends and family, or even coins found on the ground! Every coin counts!

Remember...See a coin, pick it up, all year long you'll have good luck! Thank you in advance for your contribution and for being a part of this event!
